

Risikomanagementsysteme – nach Recht und Gesetz!

Prof. Dr. Hans-Georg Köglmayr, Christoph Kolb, Uwe Dannwolf, Andrea Ströhle

The paper introduces the world's most important laws, rules and regulations, and standards on risk management and risk management systems. Apart from a brief characteristic of the individual schemes will shed light on the conditions and feasibility of the proposed guidelines. Criticism leads to a model developed by the authors - RIMBABS called - with the use of the business very easy to use a forward-looking risk management system.
